NEWS RELEASE

Redfern Integrated Optics (RIO) to Provide Advanced Narrow-Linewidth Lasers for Fiber Optic Gyroscopes

Santa Clara, Calif. – April 10, 2012 – Redfern Integrated Optics, Inc. (RIO), the Silicon Valley based supplier of semiconductor low-noise lasers and sub-systems, today announced that it has been selected to provide advanced components for Honeywell’s next generation fiber optic gyroscopes.

Dr. Radu Barsan, chairman, president and CEO of RIO, commented: “We are delighted to collaborate with Honeywell to supply lasers and custom integrated subsystems for their advanced optical gyroscope programs. We believe that our silicon photonics technology is uniquely positioned to meet the breakthrough requirements.”

About RIO Inc.

Redfern Integrated Optics, Inc. (RIO) is the leading global supplier of single frequency narrow linewidth lasers, modules, and subsystems to the clean energy, security, oil and gas, and test and measurement markets. RIO’s lasers have ultra-low noise, unparalleled wavelength stability, small size, low power dissipation, Telecom grade lifetime reliability, at affordable prices. For more information, please visit www.rio-inc.com, email sales@rio-inc.com, or call 408-970-3500 ext.310.
